

# Fila StonePlus

PROTECTIVE ENHANCER FOR NATURAL STONE

On tumbled Verde Alpi, Fila StonePlus gives excellent results: enhances like never before.

On polished pink marble, Fila StonePlus is at its best, giving new life to the material's shades and veining.

A split face slate surface treated with Fila StonePlus (left) and a untreated sample (right). It is evident that even darker colours are enhanced.

Fila StonePlus also enhances the natural colour of flamed granite.

**POLISHED MARBLE AND AGGLOMERATES**  
**UN POLISHED MARBLE AND AGGLOMERATES**

## WHAT IT'S FOR

- Protects and enhances the original colour of polished, honed, rough and tumbled natural stone.
- Penetrates deeply into the material, protecting it from water and oily stains and dirt.
- Ideal for windowsills, tops, rosettes, inset decorations. Perfect for interior and exterior surfaces.

## ADVANTAGES

- Intensifies colour whatever the surface finish.
- For interior and exterior surfaces.
- Non-yellowing, UV resistant, provides long-lasting protection.
- Very high coverage rates.
- Eliminates weaknesses in granite.
- No film forming.
- Certified as suitable for use on food contact surfaces.

## HOW IT'S USED

**No dilution:** ready to use

### Application:

1. Using a paintbrush, a sponge or other applicator, apply Fila StonePlus to a clean, dry surface.
2. During the application rub the surface with a sponge or a cloth to help the penetration of the product and the removal of any excess.
3. The surface can be walked on after only eight hours.
4. For a deeper colour, repeat procedure, waiting at least 8 hours between each application.

### Maintenance:

diluted solution of FilaCleaner

### Caution:

Once treated with FilaStone Plus, your stone cannot be returned to its original state. Perform a preliminary spot test on a small area to view the effect.

### COVERAGE

With one litre:

Polished stone	50 m <sup>2</sup>
Rustic stone	20/25 m <sup>2</sup>

"Coverage rates are approximate and refer to a single coat of the product"

### Packaging

250ml cans in box of 12.  
1 litre cans in box of 12.  
5 litre cans in box of 4.

### PRECAUTIONS

\*Solvent based: when used indoors, ventilate premises thoroughly. Keep in a cool, dry place.

Storage temperature: between 0° C and 30° C.  
Must be applied to material at temperatures between 5° and 30° C.

### COMPOSITION

Blend of siloxane compounds dispersed in de-aromatized hydrocarbon solvent.

### LABELLING

#### Symbol

St Andrew's Cross

#### Risk Phrases

Flammable. Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment. Harmful may cause lung damage if swallowed. Repeated exposure may cause skin dryness or cracking.

#### Safety Phrases

Keep out of the reach of children. Keep away from food, drink and animal feedingstuffs. In case of fire use: earth, sand, chemical powder or foam. If swallowed, do not induce vomiting; seek medical advice immediately and show this container or label.

**Contains:** white spirit.

### TECHNICAL INFORMATION

**Appearance:** liquid

**Colour:** colourless

**Odour:** slight odour of hydrocarbon solvent

**Density:** 0.900 kg/litre

**Flash point:** 40° C

The information above reflects our latest technical know-how and is the outcome of ongoing laboratory research and testing. However, some factors are beyond our control. It is essential to integrate our suggestions with your own on-site preliminary tests and check. Fila accepts no liability for improper use of its products.
