

CERAMO

INNOVATION IN TILES

VERSATILE FLOORING SOLUTIONS

Available from Ceramo, EVO_2/e is the most complete and versatile system for designing your outdoor living. EVO_2/e is 20mm-thick porcelain stoneware available in various sizes and created to combine aesthetics and functionality in outdoor surfaces.

The versatile product can be used for terraces, rooftops, gardens, pool areas, and patios, as well as indoor floors to create a continuous effect. EVO_2/e is easy to clean and is removable, with its floating installation on spacer feet. The product is Ecolabel certified and guarantees low environmental impact throughout its entire life span.

Also available from Ceramo is the stunning PAR-KER range of timber-look planks. The PAR-KER range offers the beauty of wood without all the wear and maintenance issues. With its many technical advantages, the PAR-KER range is perfect for alfresco areas, gardens, living areas and bathrooms.

Durable flooring is essential for outdoor areas such as patios, balconies and decks, given their exposure to the weather. PAR-KER anti-slip tiles, with a slip-resistant glaze, are ideal for exposed areas, providing an extra measure of safety without compromising on style.

Ceramo offers Perth tile customers a refreshing and innovative tile buying experience. With such an extensive range, Ceramo provides the perfect product selection to reflect your lifestyle and realise your vision.

The team at Ceramo has many years of experience and can explain everything you need to know in order to make the right decision for your home. Ceramo can provide advice and coordinate the best layouts, colours and styles for your project.
